

Capital Equestrian  
Equine Art by Kim Murray

## A bit of info about the venue:

New Barn is owned by one of Cheshire's most well know riding teachers and equine specialists; Pamela Rigby (BHSII) MBE and has been developed to cater to the requirements of smaller clinics and equestrian courses. Just 10 minutes from the M6 and the bustling towns of Knutsford and Holmes Chapel it offers a bit of a break from the norm.

New Barn is also host to Rocky the Riding Simulator and is the Mid-Cheshire Centre for the Riding for the Disabled (RDA), it also offers Holiday Liveries and Rehabilitation liveries in addition to its visitor stabling and is an excellent location for overnight stopovers on long horse journeys.

In addition to the stabling, covered school and Riding Simulator there is a bright and airy classroom, which seats up to 25 people which we will be using for the weekend.

It is a bustling yard with lots going on outside of our classroom with disabled access, kitchen facilities, wcs and parking on its doorstep.

There are no shops close by (Knutsford being the nearest town) but there will be chance to stretch your legs and take in some of the day's activities in order to tune into those creative equine thoughts.

Please take into account that this is a very busy venue and we take no responsibility for any damage or accidents etc. and we ask that you please take great care and consideration for all other people and horses on site.
